LEVENHUK SPOTTING SCOPES

ADVANCED LEVEL

LEVENHUK BLAZE PLUS

Waterproof and shockproof shells with nitrogen filling. High-quality fully multi-coated optics. Removable metal eyepieces.

€200

LEVENHUK BLAZE PRO

Waterproof and shockproof shells with nitrogen filling. High-quality fully multi-coated optics. Removable metal eyepieces. Lenses from 50 to 100 mm.

€250

ENTRY LEVEL

LEVENHUK BLAZE BASE

Lightweight compact models for city or nature walks. The series includes models with fixed and variable magnification. Multi-coated optics. Tripod included in the kit.

€100

LEVENHUK MONOCULARS

ADVANCED LEVEL

LEVENHUK WISE PLUS

Waterproof and shockproof shells. Great fully multi-coated optics. Removable soft rubber eyecups.

€50

LEVENHUK NELSON

Hermetic models with built-in compass. Ideal instruments for observations near water in any weather conditions. Coated optics of BaK-4 glass.

€80

ENTRY LEVEL

LEVENHUK WISE

Compact monoculars with rubberized shells and an ability to focus just 30 centimeters away from observed object. Feature multi-coated optics.

€35

LEVENHUK MAGNIFIERS

FOR PRECISION WORK

LEVENHUK ZENO VIZOR

Head magnifiers and magnifiers on spectacle frames (magnifying glasses). Powerful magnification, LED lighting, ease of use. Ideal for long, high-precision work. Represented by Zeno Vizor Head Magnifiers and Zeno Vizor Magnifying glasses.

€15

DIGITAL

LEVENHUK ZENO DTX43

Digital magnifier with a large LCD screen and four fixed magnifications. Seven color modes,"freeze frame" feature, LED lighting, memory cards support. Connects to a computer, laptop or TV.

€150

UNIVERSAL

LEVENHUK BINOCULARS: BASIC LINEUP

TOP-CLASS

LEVENHUK VEGAS ED

Premium roof prism binoculars in gift packaging. ED glass, multi-coated optics, waterproof nitrogen-filled shells.

€180

LEVENHUK MONACO ED

Premium roof prism binoculars in luxury gift packaging. Provide images of the highest quality due to multi-coated ED glass. Come in waterproof nitrogen-filled shells.

€250

ADVANCED LEVEL

LEVENHUK KARMA PRO

Compact roof prism design. Feature fully multi-coated optics and waterproof shells. Equipped with improved multi-coated 4-element eyepieces.

€120

LEVENHUK SHERMAN PRO

Classic Porro prism field binoculars. Feature fully multi-coated optics and waterproof shells. Equipped with improved multi-coated 5-element eyepieces.

€150

LEVENHUK KARMA PLUS

Compact roof prism design. Feature multi-coated optics and waterproof shells. Equipped with improved 3-element eyepieces.

€100

LEVENHUK SHERMAN PLUS

Classic Porro prism field binoculars. Feature multi-coated optics and waterproof shells. Equipped with improved 4-element eyepieces.

€120

ENTRY LEVEL

LEVENHUK KARMA

Compact roof prism design. Feature multi-coated optics.

€70

LEVENHUK SHERMAN BASE

Classic Porro prism field binoculars. Feature multi-coated optics and waterproof shells.

€100

LEVENHUK ATOM

Affordable and quality binoculars with fully coated optics. The series includes roof and Porro prism binoculars. Comfortable to hold embossed shells also protect optics from moisture.

€50

LEVENHUK BINOCULARS: SPECIAL EDITION

ASTRONOMY & MARINE

LEVENHUK NELSON

Marine binoculars for observations near water. Built-in compasses with illumination, the ability to measure distances and sizes of objects. Sealed construction and nitrogen filling of shells.

€140

LEVENHUK BRUNO PLUS

Astronomical binoculars with large lenses and powerful magnification. Multi-element optics with anti-reflective coating, aluminum shell, water protection. Used with a tripod.

€200

THEATER & STYLISH

LEVENHUK RAINBOW

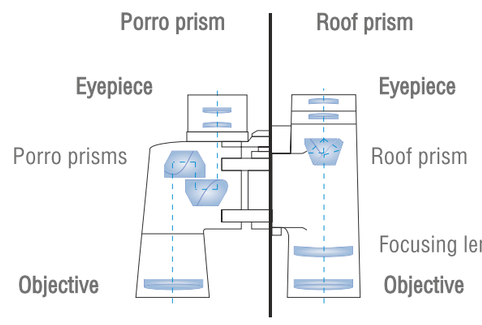
Available in seven bright fashionable colors and gift packaging. Compact (about 200 grams), waterproof, equipped with multi-coated optics.

€70

LEVENHUK BROADWAY

Elegant theater binoculars with built-in lighting; gift packaging. Feature fully coated optics.

€35



Porro prism: Classic field binoculars, simpler and more popular optical design. Porro prisms are easier to manufacture. The loss of light in the prism system is essentially considered zero, which ensures higher image quality. This design, however, makes binoculars wider and heavier.

Roof prism: More elaborate optical design as compared to Porro prism. Allows making binoculars more lightweight and compact, with more elegant appearance. Provided images are not as bright though, compared to equally priced Porro prism models.

LEVENHUK ACCESSORIES

ACCESSORIES

LEVENHUK ACCESSORIES

Levenhuk offers a wide range of accessories for optical instruments: optical filters, eyepieces, Barlow lenses, ready-to-use microscope slides, telescope bags, optics cleaning tools and more. With Levenhuk accessories, you can easily expand the capabilities of your optical equipment.

€20

LEVENHUK DIGITAL CAMERAS

Designed for photo and video shooting. Compatible with most microscopes and telescopes. The range includes cameras from 0.3 to 14 megapixels. All models are distinguished by high-quality transparent optics and sensitive electronics, so the resulting images are always clear and contrast. Software for working with images and adapters for installation are included.

€180

EDUCATIONAL MATERIALS

BOOKS & EDUCATIONALMATERIALS

Bright and informative astronomy- and biology-related publications for kids and teenagers. Levenhuk books are written in a clear and lively style and are lavishly illustrated. Educational materials include astronomy-themed posters and growth charts as well as rotating star charts used for planning your astronomical observations and learning the sky. All books and reference materials feature the finest printing.

LEVENHUK MICROSCOPES

CLINIC & LAB

LEVENHUK 320
Monocular laboratory microscope with magnification up to 1600x and lower halogen illumination. Comes with Abbe condenser and iris diaphragm. The series also includes digital model.

€300

LEVENHUK 700
Monocular, binocular and trinocular medical microscopes with magnification up to 2000x and lower halogen illumination. Feature high-quality achromatic objectives, Abbe condenser and iris diaphragm. The series also includes digital trinocular microscope.

€450

LEVENHUK 800
Binocular and trinocular medical microscopes with magnification up to 2000x and lower halogen illumination. Come with high-quality achromatic objectives, Abbe condenser and premium iris diaphragm. The series also includes digital trinocular microscope.

€750

INDUSTRIAL

LEVENHUK DTX
Portable digital microscopes with PC connection via USB or WiFi or with built-in LCD displays. Can be applied in electronics, jewelry, watch repairing and used for measuring small objects. All required cables and software are included in the kit.

€120

LEVENHUK ST
Stereomicroscopes with long working distance and upper and lower illumination systems. Can be applied in electronics, metallurgy, and forensic science; used by jewelry makers and watch repairers.

€200

SCHOOL RESEARCH

LEVENHUK RAINBOW 50L
School monocular microscope with magnification up to 800x, comes with carrying case. Plastic-bodied microscope equipped with two built-in LED illuminations. Each model comes with an experiment kit and a Barlow lens. Available in five amazing colors.

€120

LEVENHUK RAINBOW 50L PLUS
School monocular microscope with magnification up to 1280x, comes with carrying case. Metal-bodied microscope equipped with two built-in LED illuminations. Each model comes with an experiment kit and Barlow lens. Available in five amazing colors. The series also includes a digital model.

€140

LEVENHUK RAINBOW 2L
School monocular microscope with magnification up to 400x. Plastic-bodied microscope equipped with two built-in LED illuminations. Each model comes with an experiment kit. Available in five amazing colors. The series also includes a digital model.

€70

LEVENHUK RAINBOW 2L PLUS
School monocular microscope with magnification up to 640x. Metal-bodied microscope equipped with two built-in LED illuminations. Each model comes with an experiment kit. Available in five amazing colors.

€100

LEVENHUK S NG
Simple educational microscopes with mirror magnification. Easy and reliable design of metal bodies. Levenhuk 3S NG comes with detailed user guide and experiment kit.

€60

LEVENHUK TELESCOPES

GOTO

LEVENHUK SKYMATIC
Telescopes that locate and track planets and stars automatically. Include reflector and Maksutov-Cassegrain telescopes with connection to a PC and a hand controller.

€600

CLASSIC

LEVENHUK SKYLINE
Classic reliable telescopes with basic kit for beginners. Include refractors and reflectors on alt-azimuth or equatorial mounts.

€170

LEVENHUK SKYLINE PRO
Classic reliable telescopes with basic kit. Maksutov-Cassegrain telescopes on equatorial mounts.

€400

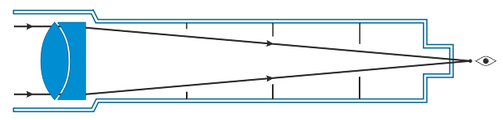
Telescope Types

Refractors: use lenses to form an image. Feature outstanding image quality. Telescopes of this type are portable, reliable and don't require additional adjustment. Perfect choice for astrophotography, although large-aperture models are quite expensive.

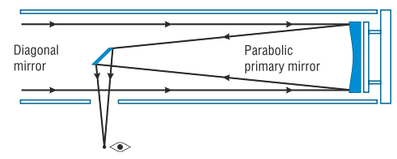
Reflectors: use mirrors to form an image. Feature excellent image quality. Perfect choice for deep-sky observations, including observing galaxies. Telescopes of this type are really affordable (even large-aperture models), but are larger in size as compared to telescopes of other types.

Maksutov-Cassegrain: use both lenses and mirrors. Telescopes of this type are compact, reliable and provide images of great quality. Perfect choice for observing the Sun, the Moon and Solar System planets. Also a very good choice for astrophotography.

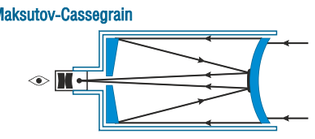
Refractors



Reflectors



Maksutov-Cassegrain



EXTENSIVE KIT

LEVENHUK STRIKE NG
The kit additionally includes: astronomer's handbook, space posters and other extras worth over €50. Refractors on azimuth mounts.

€100

LEVENHUK STRIKE PLUS
The kit additionally includes: telescope bag, handbook, posters and 6 more accessories for a total value of €100. Refractors and reflectors on azimuth and equatorial mounts.

€250

LEVENHUK STRIKE PRO
The kit includes: telescope case, optical filters, additional eyepieces and 10 more extras for a total value of €200. Refractor and Maksutov-Cassegrain telescopes on equatorial mounts.

€400

COMPACT

LEVENHUK SKYLINE TRAVEL
Compact telescopes for walking and traveling. Short tubes, light aluminum tripods and simple mounts. Include a backpack for transportation and additional accessories. Great for both children and adults.

€70

LEVENHUK LABZZ OPTICS FOR KIDS

OPTICS KITS

LEVENHUK LABZZ OPTICS KITS
Universal kits for exploring the world around us. Both kits include an easy-to-use telescope with a tabletop tripod and a compact microscope supplied with an experiment kit. The MTB3 kit also includes a pair of pocket binoculars. Each kit comes with additional instruments and accessories.

€45

TELESCOPES

LEVENHUK LABZZ T TELESCOPES
Compact entry-level telescopes designed specifically for children and teenagers. Feature compact dimensions, light weight, ease of use and attractive design. The telescopes are equipped with eyepieces and finderscopes. An ideal introduction to the cosmos. A young observer will be able to see the Moon, planets and stars. Terrestrial objects are also available for observations.

€40

LEVENHUK LABZZ D1 TELESCOPE
Desktop reflecting telescope mounted on a Dobson mount with a 360° rotating platform. Coated optics, minimum optical distortion, unusual and bright design. The kit includes eyepieces and a Barlow lens. A great tool for exploring the planets and satellites of the Solar System.

€55

MICROSCOPES

LEVENHUK LABZZ M MICROSCOPES
The series of simple microscopes includes three biological models and a stereomicroscope with a binocular head. The microscopes come with additional accessories, ready-to-use samples for study and tools for work. The LabZZ M3 model comes with an eyepiece projector for projecting images onto any flat surface.

€45

LEVENHUK LABZZ M101 MICROSCOPES
Entry-level biological microscopes for children with stylish translucent bodies of an unusual shape. LED illumination, prepared slides and experiment kit with every model – these microscopes have everything needed for thrilling first discoveries!

€35

BINOCULARS & MONOCULARS

LEVENHUK LABZZ BINOCULARS & MONOCULARS
Lightweight pocket tools for outdoor and indoor games, animal and bird watching, walking and traveling. "Adult" glass optics, shells with rubberized surface, soft eyecups. The models come with cases, straps and cleaning wipes.

€15

MAGNIFIERS & ACCESSORIES

LEVENHUK LABZZ RESEARCH TOOLS
Exploration of the world starts with questions like what is the temperature outside, where do birds fly, who hides in the dark corner? Flashlights, compasses and camping kits LabZZ will help your child explore the surrounding world, and will become indispensable helpers on walks and part of developing games.

€5

LEVENHUK LABZZ MAGNIFIERS
Magnifying glasses with compasses and unusual insect cans are great tools for studying the world around you. All models are equipped with lenses that are safe for toddlers and preschoolers and made of a special optical material.

€5
