Compact roof prism design. Feature multi-coated optics and waterproof shells. Equipped with improved 3-element eyepieces.
€100

LEVENHUK SHERMAN PLUS
Classic Porro prism field binoculars. Feature multi-coated optics and waterproof shells. Equipped with improved 4-element eyepieces.
€120

LEVENHUK KARMA
Compact roof prism design. Feature multi-coated optics.
€70

LEVENHUK SHERMAN BASE
Classic Porro prism field binoculars. Feature multi-coated optics and waterproof shells.
€100

LEVENHUK ATOM
Affordable and quality binoculars with fully coated optics. The series includes roof and Porro prism binoculars. Comfortable to hold embossed shells also protect optics from moisture.
€50

LEVENHUK BINOCULARS: SPECIAL EDITION

ASTRONOMY & MARINE

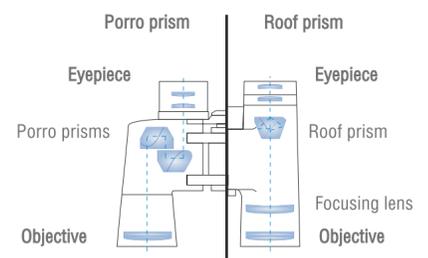

LEVENHUK NELSON
Marine binoculars for observations near water. Built-in compasses with illumination, the ability to measure distances and sizes of objects. Sealed construction and nitrogen filling of shells.
€140

LEVENHUK BRUNO PLUS
Astronomical binoculars with large lenses and powerful magnification. Multi-element optics with anti-reflective coating, aluminum shell, water protection. Used with a tripod.
€200

THEATER & STYLISH

LEVENHUK RAINBOW
Available in seven bright fashionable colors and gift packaging. Compact (about 200 grams), waterproof, equipped with multi-coated optics.
€70

LEVENHUK BROADWAY
Elegant theater binoculars with built-in lighting; gift packaging. Feature fully coated optics.
€35

Porro prism: Classic field binoculars, simpler and more popular optical design. Porro prisms are easier to manufacture. The loss of light in the prism system is essentially considered zero, which ensures higher image quality. This design, however, makes binoculars wider and heavier.

Roof prism: More elaborate optical design as compared to Porro prism. Allows making binoculars more lightweight and compact, with more elegant appearance. Provided images are not as bright though, compared to equally priced Porro prism models.

LEVENHUK ACCESSORIES

ACCESSORIES

LEVENHUK ACCESSORIES
Levenhuk offers a wide range of accessories for optical instruments: optical filters, eyepieces, Barlow lenses, ready-to-use microscope slides, telescope bags, optics cleaning tools and more. With Levenhuk accessories, you can easily expand the capabilities of your optical equipment.
€20

LEVENHUK DIGITAL CAMERAS
Designed for photo and video shooting. Compatible with most microscopes and telescopes. The range includes cameras from 0.3 to 14 megapixels. All models are distinguished by high-quality transparent optics and sensitive electronics, so the resulting images are always clear and contrast. Software for working with images and adapters for installation are included.
€180

EDUCATIONAL MATERIALS

BOOKS & EDUCATIONAL MATERIALS
Bright and informative astronomy- and biology-related publications for kids and teenagers. Levenhuk books are written in a clear and lively style and are lavishly illustrated. Educational materials include astronomy-themed posters and growth charts as well as rotating star charts used for planning your astronomical observations and learning the sky. All books and reference materials feature the finest printing.

LEVENHUK MICROSCOPES

CLINIC & LAB
INDUSTRIAL
SCHOOL RESEARCH

LEVENHUK 320

Monocular laboratory microscope with magnification up to 1600x and lower halogen illumination. Comes with Abbe condenser and iris diaphragm. The series also includes digital model.

€300

LEVENHUK 700

Monocular, binocular and trinocular medical microscopes with magnification up to 2000x and lower halogen illumination. Feature high-quality achromatic objectives, Abbe condenser and iris diaphragm. The series also includes digital trinocular microscope.

€450

LEVENHUK 800

Binocular and trinocular medical microscopes with magnification up to 2000x and lower halogen illumination. Come with high-quality achromatic objectives, Abbe condenser and premium iris diaphragm. The series also includes digital trinocular microscope.

€750

LEVENHUK DTX

Portable digital microscopes with PC connection via USB or WiFi or with built-in LCD displays. Can be applied in electronics, jewelry, watch repairing and used for measuring small objects. All required cables and software are included in the kit.

€120

LEVENHUK ST

Stereomicroscopes with long working distance and upper and lower illumination systems. Can be applied in electronics, metallurgy, and forensic science; used by jewelry makers and watch repairers.

€200

LEVENHUK RAINBOW 50L

School monocular microscope with magnification up to 800x, comes with carrying case. Plastic-bodied microscope equipped with two built-in LED illuminations. Each model comes with an experiment kit and a Barlow lens. Available in five amazing colors.

€120

LEVENHUK RAINBOW 50L PLUS

School monocular microscope with magnification up to 1280x, comes with carrying case. Metal-bodied microscope equipped with two built-in LED illuminations. Each model comes with an experiment kit and Barlow lens. Available in five amazing colors. The series also includes a digital model.

€140

LEVENHUK RAINBOW 2L

School monocular microscope with magnification up to 400x. Plastic-bodied microscope equipped with two built-in LED illuminations. Each model comes with an experiment kit. Available in five amazing colors. The series also includes a digital model.

€70

LEVENHUK RAINBOW 2L PLUS

School monocular microscope with magnification up to 640x. Metal-bodied microscope equipped with two built-in LED illuminations. Each model comes with an experiment kit. Available in five amazing colors.

€100

LEVENHUK S NG

Simple educational microscopes with mirror magnification. Easy and reliable design of metal bodies. Levenhuk 35 NG comes with detailed user guide and experiment kit.

€60

BOTO
CLASSIC
EXTENSIVE KIT
COMPACT

LEVENHUK TELESCOPES

LEVENHUK SKYMATIC

Telescopes that locate and track planets and stars automatically. Include reflector and Maksutov-Cassegrain telescopes with connection to a PC and a hand controller.

€600

LEVENHUK SKYLINE

Classic reliable telescopes with basic kit for beginners. Include refractors and reflectors on alt-azimuth or equatorial mounts.

€170

LEVENHUK SKYLINE PRO

Classic reliable telescopes with basic kit. Maksutov-Cassegrain telescopes on equatorial mounts.

€400

LEVENHUK STRIKE NG

The kit additionally includes: astronomer's handbook, space posters and other extras worth over €50. Refractors on azimuth mounts.

€100

LEVENHUK STRIKE PLUS

The kit additionally includes: telescope bag, handbook, posters and 6 more accessories for a total value of €100. Refractors and reflectors on azimuth and equatorial mounts.

€250

LEVENHUK STRIKE PRO

The kit includes: telescope case, optical filters, additional eyepieces and 10 more extras for a total value of €200. Refractor and Maksutov-Cassegrain telescopes on equatorial mounts.

€400

LEVENHUK SKYLINE TRAVEL

Compact telescopes for walking and traveling. Short tubes, light aluminum tripods and simple mounts. Include a backpack for transportation and additional accessories. Great for both children and adults.

€70

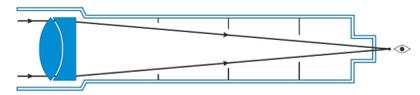

Telescope Types

Refractors: use lenses to form an image. Feature outstanding image quality. Telescopes of this type are portable, reliable and don't require additional adjustment. Perfect choice for astrophotography, although large-aperture models are quite expensive.

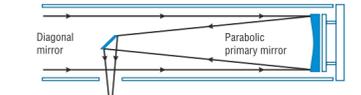

Reflectors: use mirrors to form an image. Feature excellent image quality. Perfect choice for deep-sky observations, including observing galaxies. Telescopes of this type are really affordable (even large-aperture models), but are larger in size as compared to telescopes of other types.

Maksutov-Cassegrain: use both lenses and mirrors. Telescopes of this type are compact, reliable and provide images of great quality. Perfect choice for observing the Sun, the Moon and Solar System planets. Also a very good choice for astrophotography.

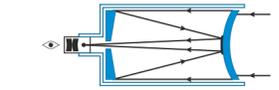

Refractors

Reflectors

Maksutov-Cassegrain

LEVENHUK LABZZ OPTICS FOR KIDS

OPTICS KITS
TELESCOPES
MICROSCOPES
BINOCULARS & MONOCULARS
MAGNIFIERS & ACCESSORIES

LEVENHUK LABZZ OPTICS KITS

Universal kits for exploring the world around us. Both kits include an easy-to-use telescope with a tabletop tripod and a compact microscope supplied with an experiment kit. The MTB3 kit also includes a pair of pocket binoculars. Each kit comes with additional instruments and accessories.

€45

LEVENHUK LABZZ T TELESCOPES

Compact entry-level telescopes designed specifically for children and teenagers. Feature compact dimensions, light weight, ease of use and attractive design. The telescopes are equipped with eyepieces and finderscopes. An ideal introduction to the cosmos. A young observer will be able to see the Moon, planets and stars. Terrestrial objects are also available for observations.

€40

LEVENHUK LABZZ D1 TELESCOPE

Desktop reflecting telescope mounted on a Dobson mount with a 360° rotating platform. Coated optics, minimum optical distortion, unusual and bright design. The kit includes eyepieces and a Barlow lens. A great tool for exploring the planets and satellites of the Solar System.

€55

LEVENHUK LABZZ M MICROSCOPES

The series of simple microscopes includes three biological models and a stereomicroscope with a binocular head. The microscopes come with additional accessories, ready-to-use samples for study and tools for work. The LabZZ M3 model comes with an eyepiece projector for projecting images onto any flat surface.

€45

LEVENHUK LABZZ M101 MICROSCOPES

Entry-level biological microscopes for children with stylish translucent bodies of an unusual shape. LED illumination, prepared slides and experiment kit with every model - these microscopes have everything needed for thrilling first discoveries!

€35

LEVENHUK LABZZ BINOCULARS & MONOCULARS

Lightweight pocket tools for outdoor and indoor games, animal and bird watching, walking and traveling. "Adult" glass optics, shells with rubberized surface, soft eyecups. The models come with cases, straps and cleaning wipes.

€15

LEVENHUK LABZZ RESEARCH TOOLS

Exploration of the world starts with questions like what is the temperature outside, where do birds fly, who hides in the dark corner? Flashlights, compasses and camping kits LabZZ will help your child explore the surrounding world, and will become indispensable helpers on walks and part of developing games.

€5

LEVENHUK LABZZ MAGNIFIERS

Magnifying glasses with compasses and unusual insect cans are great tools for studying the world around you. All models are equipped with lenses that are safe for toddlers and preschoolers and made of a special optical material.

€5
